Areas Of Interest

Web Development

Database Management System

Exposure

- Won 3rd place with cash prize of Rs.500/- in Codeathon at Kongu Engineering Technology on 2023.
- Participated in "Gaming Hackathon" conducted by MayaVerse Gaming Technology on 2024.
- Won 2nd place with cash prize of Rs.1000 in

Projects

Agro Craft:A web-based platform designed for farmers to connect directly with buyers, eliminating intermediaries. This allows for direct bargaining and concessions, benefiting both parties by ensuring fair prices and transparent transactions.

Code Repository:A collaborative website where groups can share and enhance code. Users can clear up sections through chat and maintain direct contact, fostering a collaborative and efficient coding environment.

Smart Web-Based Inventory Management System Using AI:This web-based project connects shopkeepers with inventory suppliers, allowing them to order products online. This system uses AI to streamline the process, making it easier to manage inventory without the need to visit physical locations, especially in challenging situations.

Git View:A website that displays programmers' scores on GitHub and showcases their project repositories. This platform helps users track their contributions and view others' work, fostering a community of developers.
